Rainbow

Unified communication: MobiCall and Rainbow!

MobiCall x Rainbow

Unified communication: MobiCall and Rainbow!

Rainbow offers flexible real-time communication solutions (private, hybrid or public) that link people, devices and processes, while providing simple voice and video collaboration tools to connect people, machines and processes.

With MobiCall's Rainbow interface, you can communicate with people wherever they are.

This integration enhances employee safety by sending alerts in case of emergency alerts and facilitates communication, reducing response times while enhancing overall safety and productivity.

Benefits

Mobility

Alarms are transmitted via the application.
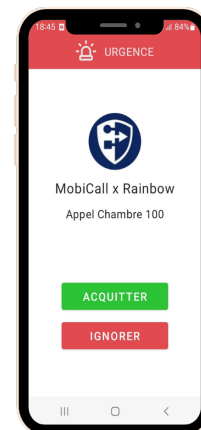

Flexibility

Send alarms to individuals or channels.

Custom-made

Customize alarm texts and voice messages
as well as image attachments.

Adaptability and scalability
