Public

Public Infrastructure by New Voice.
All features from the cloud

Private

Customer/Partner Infrastructure

- Hosptial Network
- Partners as Service Providers

Hybrid

Cloud Infrastructure by New Voice.
Local Infrastructure at Customer's
Premises

- Fault Tolerance and Monitoring from
  the Cloud
- Mass Alerts Utilizing Cloud Re-
  sources
- Blackout Concept

Application Areas

**Mobilization
Evacuation**

**Silent Alarm
Emergency Calls**

**Personal Protection
Localization**

**Integration of Process
Control Technology**

**IoT Alarms and
Monitoring**

**Task Management
Mobile Apps**

Key Features

High-Performance

Infrastructure
Georedundant Systems for
Maximum Availability

Safety
Encrypted Data Transmission
&
Comprehensive Protection

Integration
Incorporation of Process
Control Technology,
Technical Components &
IoT Solutions

Three versions of MobiCall!
Flexible alerting for every application area!

MobiBBox

MobiCCloud

MobiCall

Disaster Alerting

MobiCCloud provides fast and reliable alerting directly from the cloud for hospitals. Incident commanders receive real-time updates on the alert and arrival of the medical team.

Emergency Communication

A simple call initiates emergency plans. Employees are informed through various channels such as call, SMS, email, and MobiCall.App. An alarm server is essential for effective emergency communication.

SMEs & Cloud

For small and medium-sized enterprises, the cloud option offers numerous advantages:
- No high initial costs
- Scalable security
- Support from manufacturer expertise
- Integrated systems and comprehensive alerting options based on 30 years of experience

Reliable, secure, and alarm-ready in MobiCCloud!

The Watchdog-As-A-Service continually checks the functionality of your MobiCall system. In the event of a failure, an alarm notification is sent via SMS, email, voice call, and app. After recovery, you will be notified of a clearance. As usual, escalation in the cloud is possible, and alarms are customizable to individual preferences.

**Watchdog as a Service -
Simply secure MobiCall monitoring.**

Multimedia Attachments: PDF, Image, Audio

Custom Icons on the Dashboard

Presence Status via App

Login with NFC-Tags & QR-Codes

Real-time status reports for alarm acknowledgments

Location-based Alarms through GPS & BLE Beacons

**Alarm Priorities: Different volumes, ringtones, colors**

Lone Worker Protection: Features such as loss of verticality and localization

With the MobiCall.App and cloud solution from the App Store, businesses are be prepared for crisis situations without additional hardware investments. Alarm scenarios can be easily configured through the app or the web interface and are activated instantly.

Fast, reliable, indispensable.

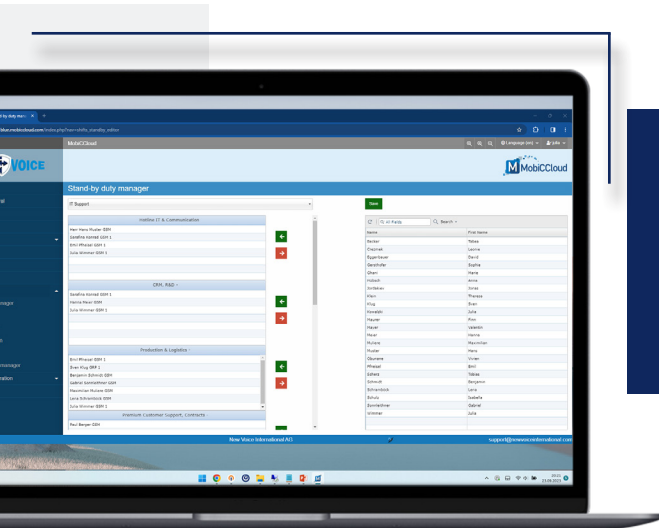

Your direct connection to safety!

Swift reactions in critical moments are crucial. Learn more on our website!
